Introduction Class**

VISUAL *Changes*®
SKIN CARE INTERNATIONAL

BENEFICIAL EDUCATION

In this class you will learn how Visual Changes® is setting the standards for unprecedented levels of success by using the hottest ingredients in the skin care industry, such as Matrixyl™ (palmitoyl pentapeptide 4), and other cutting-edge ingredients that work like topical Botox® and Restylane® (hyaluronic acid).

Maximize your profitability and patients' results by learning which ingredients and products work best to help eliminate and prevent signs of aging, rosacea, acne, and hyperpigmentation.

Learn how **Visual Changes® Designer Depigmenting Treatments®** are the most innovative approach to skin lightening and why **Visual Changes® Designer Peels®** are the preferred choice for dramatic visual changes in face and body peeling.

We will also share with you exciting marketing strategies to help you achieve unprecedented levels of success.

Our training will make a difference in your ability to increase profits and deliver outstanding results!
